## ABOUT ME

---

Hi, I'm Nasim, a graduate with a master's degree in Physics and one year experience in web design. I am a punctual and hardworking person and performing my duties is my top priority. Since coding for web is one of the greatest pleasures of my life, I am eager to improve my skills in this sector and gain more experience. Therefore, I am looking for an internship opportunity to provide me with the necessary skills and network that will help me grow professionally in my future career as a frontend developer.
